### Guide to MPI's Education Series:

- The Insight Series**  
You wanted case studies, best practice examples, peer networking and time to share and discuss the 'how's and why's' in our industry. MPI UK this year has brought you a specific track, easily identified to give you the insights you asked for.
- Inspirational Speakers**  
Motivational, reflective, empowering and analytical messages are brought to you through the Inspirational Speaker track. MPI UK offers a lift every now and again and an excellent opportunity to re-group with your team or clients.
- Professional Development**  
MPI UK has always given you continued education in the industry and this will continue. Using members and non-members we bring to you education and training in both the knowledge and skills that will enable you to develop in a global industry.
- Personal Development**  
Underpinning your professional profile is your personal development. MPI UK sees our part in that process. We have created a place for you to learn about transferable skills. Keeping you aware of the latest ideas, some of them more quirky than others, will help you achieve a wider knowledge base.
