Volunteers will have lunch provided and will visit a local fish hatchery. Waterproof hiking footwear is recommended.
- **Carbon Offset** As part of MPI’s ongoing commitment to sustainable events we’re offering you the chance to offset the entire Co2 generated by your travel to and from the event and participation onsite at the convention center and hotel. Your contribution will bring wind power to India providing a local rural population access to renewable energy and employment. We have calculated that each delegate will contribute to 1tCO2e on average. This Carbon offset allows an individual or organization to offset the equivalent of its GHG emissions that cannot be reduced any further (“incompressible emissions”), by investigating in the GHG emission reduction projects in a developing country. This mechanism enables to reduce, in a developing country, a GHG volume equivalent to the one produced by the emitting country.
