We're Kind of a Big Deal - MPI Middle Pennsylvania Chapter is Top Performer for Fourth Consecutive Year

HERSHEY, PA (September 28, 2020) – Meeting Professionals International (MPI) Middle Pennsylvania Chapter was reviewed and ranked by MPI Global as one of the top-performing chapters in the nation.

MPI Middle Pennsylvania scored well above average in several categories including member satisfaction, member retention, fiscal sustainability, educational offerings, and volunteer engagement.

"We are thrilled to receive a positive report even amidst the global pandemic," said Cyndy Cosner, President, MPI Middle Pennsylvania. "It speaks volumes to the dedication and passion of our members who continued to engage and work through issues that devastated our industry. As a chapter, we share knowledge and resources and remain strong and prepared to face tough challenges."

MPI Bylaws and Global Policies evaluate each chapter's performance as required to maintain the charter and to ensure chapters are following best operational practices for fiscal sustainability, operational health, and membership engagement. This year, MPI adjusted the scores due to the impact of the coronavirus pandemic and quarantine.
