Dungeness crab has long been one of California's favorite and most lucrative fishing marvel's and has been enjoyed all over the world. We are so lucky to be right here in Northern California where Bodega Bay produces \$10 million a year alone. So how much crab did we consume at our Crabfeed? We will be taking numbers of the pounds consumed at the 2019 Crabfeed for a special prize in a new contest so get your entry in at the Crabfeed this year. Tickets are \$70 per person or a table of 10 for \$900.

Are you ready for a feeding frensy? Break out your cracking tools and warm butter and let the feeding frenzy begin.

Thank you for your generosity and support.
